CHAPTER 1 INTRODUCTION

Overview 1-1
The Regional Transportation Plan..... 1-2
 Transportation Planning Process 1-3
 Travel Demand Modeling Process 1-4
 Population and Employment Trends in Washoe County 1-4
 Vehicle Miles Traveled, Travel Time and Population Trends 1-6
 Conformity with Federal Regulations 1-8
 Air Quality Conformity and Pollutants Status 1-9
 Regional Transportation Plan Public Participation Process 1-9
 RTP Steering Committee 1-9
 Technical Advisory Committee..... 1-9
 Citizens Advisory Committee 1-10
 Regional Transportation Plan (RTP) Adoption Process 1-10
 RTP Format 1-11

CHAPTER 2 GOALS, OBJECTIVES AND POLICIES

Introduction 2-1
Regional Transportation Plan (RTP) Goals 2-1
Street and Highway Objectives 2-2
 Congestion 2-2
 Condition 2-2
 Safety 2-2
 Air Quality 2-3
 General 2-3
Street and Highway Policies..... 2-3
Public Transportation Element Objectives 2-7
 Transit Modal Share 2-7
 BRT Mode Share 2-7
 Paratransit..... 2-7
Public Transportation Policies 2-7
 Provision of Service 2-7
 Quality of Service 2-8
 Accessibility 2-9
 Cost Issues/Financial 2-9
 Project Development Issues 2-10
Bicycle and Pedestrian Facilities Element Objectives 2-10
Bicycle Policies 2-11
Pedestrian Policies..... 2-12

Aviation and Goods Movement Element Objectives	2-12
Congestion	2-12
Condition	2-13
Safety	2-13
Aviation and Goods Movement Element Policies.....	2-13
Transportation System Management (TSM) Policies	2-13
Transportation Demand Management (TDM) Policies	2-14
Intelligent Transportation Systems (ITS) Policies.....	2-15
Environmental Justice Policy.....	2-16

CHAPTER 3 STREET AND HIGHWAY ELEMENT

Introduction	3-1
Operations and Maintenance	3-2
Existing Conditions.....	3-3
Washoe County Freeway System	3-3
Regional Road System-(RRS)	3-5
Regional Road System—Defined.....	3-5
Intersections.....	3-11
Street and Highway Element Objectives	3-14
Congestion	3-14
Condition	3-14
Safety	3-14
Air Quality	3-14
General	3-15
Street and Highway Policies.....	3-15
Prioritization of Routine Operations and Maintenance, System Preservation and Capacity Needs.....	3-18
Future Conditions.....	3-20
System-wide Overview.....	3-20
Identification of Future Congested Street and Highway Segments	3-23
Washoe County Freeway System	3-23
Regional Road System (RRS)	3-24
Street and Highway Unfunded Needs	3-24
Street and Highway Summary.....	3-24
Street and Highway Phasing Plan.....	3-27
Long, Long-Range Planning	3-33

CHAPTER 4 PUBLIC TRANSPORTATION ELEMENT

Introduction	4-1
Existing Conditions.....	4-2
RTC RIDE	4-2
Radial Routes	4-4
Collector Routes.....	4-4
Circulator Routes	4-4
Intercity Routes	4-5
Active Fleet	4-6
Fares.....	4-7
RIDE System Performance Indicators.....	4-7
Trip Planning and On-board Wi-Fi Internet Service.....	4-8
Plan Your Trip	4-8
Free Wi-Fi Hot Spots.....	4-8
RTC ACCESS	4-9
Active Fleet	4-11
Fare Structure	4-11
RTC ACCESS System Performance Indicators	4-11
CITICARE	4-12
Washoe Senior Ride	4-12
Non-urbanized Transportation.....	4-13
Public Transportation Objectives and Policies	4-13
Objectives	4-13
Transit Modal Share.....	4-13
BRT Mode Share	4-13
Paratransit.....	4-14
Public Transportation Policies	4-14
Provision of Service	4-14
Quality of Service	4-15
Accessibility	4-16
Cost/Financial	4-16
Land-Use and Development	4-16
Service Strategies	4-17
Rapid Transit.....	4-17
Primary Locals	4-18
Primary Express.....	4-19
Commuter Express	4-20
Local Services.....	4-21
ADA Paratransit	4-22
Other Services	4-23
Service Strategy Summary	4-23

Primary Transit Network (PTN)	4-24
PTN Rapid Transit.....	4-26
South Virginia Street Rapid Transit (Fully Funded)	4-26
Strategies for Protecting and Developing the PTN.....	4-30
Protecting the PTN’s Speed and Reliability.....	4-30
Transit Operations: Stop Spacing, Safety and Amenity	4-31
Transit Operations: Rear Door Alighting	4-32
Traffic Operations.....	4-32
Marketing the PTN for Maximizing Ridership—Amenity and Image Improvements	4-34
Enhancing Ridership through Land-Use Synergies— Development and the PTN.....	4-35
Expanding the PTN.....	4-36
Existing PTN	4-41
Planned PTN.....	4-41
Candidate PTN	4-41
Future Conditions—Unfunded Needs	4-41
Necessary Specific Actions	4-43

CHAPTER 5 BICYCLE AND PEDESTRIAN ELEMENT

Introduction	5-1
Bicycle Facilities.....	5-2
Existing Facilities.....	5-2
Classifications	5-2
Shared-Use Facility/Bicycle Path	5-2
Bicycle Lane.....	5-3
Bicycle Route	5-3
Future Facilities.....	5-3
Bicycle Summary	5-11
Pedestrian Facilities	5-12
City of Reno	5-12
City of Sparks.....	5-13
Washoe County.....	5-13
Nevada Department of Transportation (NDOT)	5-13
Pedestrian Summary.....	5-13
Bicycle and Pedestrian Facilities Element Objectives	5-14
Bicycle Policies	5-14
Pedestrian Policies.....	5-15

CHAPTER 6 AVIATION AND GOODS MOVEMENT

Introduction	6-1
Aviation	6-1
Reno-Tahoe International Airport	6-1
Airline Passenger Activity.....	6-3
Reno-Stead Airport	6-3
Future Passenger Forecasts	6-3
Goods Movement.....	6-4
Railroads.....	6-5
Air Cargo.....	6-6
Trucking	6-6
Future Conditions.....	6-9
Aviation and Goods Movement Element Objectives	6-12
Congestion	6-12
Condition.....	6-12
Safety.....	6-12
Aviation and Goods Movement Element Policies.....	6-12

CHAPTER 7 TRANSPORTATION MANAGEMENT/INTELLIGENT TRANSPORTATION SYSTEMS

Introduction	7-1
Transportation System Management	7-1
Transportation Demand Management.....	7-2
TSM/ITS Strategies.....	7-2
Signal Coordination.....	7-2
High Occupancy Vehicle (HOV) Lanes	7-2
Ramp-Metering	7-2
Signal Priority and/or Queue-Jump for Buses	7-3
Investment in Public Transportation	7-3
Dedicated Busways.....	7-3
Bus Shelters and Support Services.....	7-3
Reducing Pedestrian, Bicycle and Automobile Conflicts	7-3
Incident Management.....	7-4
Real-Time Travel Information.....	7-4
Intelligent Transportation Systems	7-4
Traffic Management	7-5
Automated Vehicle Location	7-5
Maintenance and Construction Operations	7-5
Traveler Information	7-6
Commercial Vehicle Operations.....	7-6
Emergency/Incident Management.....	7-6
Archived Data Management.....	7-7

Transportation Demand Management Strategies.....	7-7
Incentives for Non-Single Occupant Vehicle (SOV) Travel	7-7
Transportation Management Associations (TMA)	7-7
Limits on Parking Supply.....	7-7
Alternate Work Schedules.....	7-8
Telecommuting and Teleconferencing	7-8
Transit-Oriented Development (TOD)/Planned Unit Development (PUD)	7-8
Transportation System Management (TSM) Policies	7-9
Intelligent Transportation System (ITS) Policies.....	7-10
Transportation Demand Management (TDM) Policies	7-11
Current Conditions TSM/ITS	7-11
Signal Coordination.....	7-11
Ramp-Metering	7-12
Signal Priority and/or Queue-Jump for Buses	7-12
Bus Shelters and Support Services.....	7-12
Intelligent Transportation Systems	7-12
Traffic Management	7-12
Automated Vehicle Location	7-13
Traveler Information	7-13
Emergency/Incident Management.....	7-13
Archived Data Management.....	7-13
Current Conditions TDM	7-14
Incentives for Non-Single Occupant Vehicle (SOV) Travel	7-14
RTC SMART TRIPS Program.....	7-14
RTC's Bus Pass Subsidy Program.....	7-14
RTC VANPOOL Program.....	7-15
RTC RIDESHARE Program	7-15
Guaranteed Ride Home Program	7-15
Park-and-Ride Program	7-16
Alternate Work Schedules.....	7-16
Transit-Oriented Development/Planned Unit Development	7-16
Future Conditions.....	7-19
Future Conditions TSM	7-19
Traffic Management Center	7-19
Grade Separated Intersections	7-20

Future Conditions ITS	7-22
Ramp-Metering	7-22
Signal Coordination.....	7-22
Transit Signal Priority (TSP).....	7-23
Emergency Vehicle Management	7-23
Automatic Vehicle Location (AVL).....	7-23
Real-Time Bus Information	7-24
Flexible Bus Stop Signage	7-24
On-board Automated Announcements.....	7-24
Automatic Passenger Counters.....	7-24
Automated Train Detection	7-25
Collision Avoidance Technology	7-25
Future Conditions-TDM.....	7-25
Establishment of Transportation Management Associations.....	7-25
Expansion of Employer-based Ridesharing and Vanpool Programs	7-25
Alternative Forms of Work.....	7-26
Encouragement and Support of Less Auto-Dependent Land-Use	7-26

CHAPTER 8 FINANCIAL ELEMENT

Introduction	8-1
Transportation Needs.....	8-1
Street and Highway Plan/Fully Funded Needs—2008-2030	8-2
Street and Highway Illustrative Facilities Plan/Unfunded Needs—2031-2040	8-2
Public Transportation Plan/Fully Funded Needs—2008-2030	8-3
Public Transportation Illustrative Facilities Plan/Unfunded Needs—2031-2040	8-4
Transportation Revenues.....	8-5
Recent Developments.....	8-5
Street and Highway Revenues (2008-2030)	8-6
Federal.....	8-6
National Highway System (NHS)	8-8
Surface Transportation Program (STP).....	8-8
State.....	8-9
Regional.....	8-9
Local	8-11
Public Transportation Revenues	8-13
Federal.....	8-13
State.....	8-15
Regional.....	8-15
Addressing Unfunded Needs	8-17
Additional Planned Actions	8-19
Transportation Programming Process.....	8-19

CHAPTER 9 CONGESTION MANAGEMENT PROCESS

Introduction 9-1
 Purpose..... 9-2
 Washoe County CMP..... 9-2
Required Elements of a Congestion Management Process 9-3
 CMP System Facilities in Washoe County 9-4
Methods to Measure Transportation System Performance 9-4
 Policy Level of Service Standards and Levels of
 Acceptable Performance 9-4
 Data Collection and System Monitoring 9-5
Project Prioritization and Selection..... 9-6
Evaluation of Strategies 9-6
 Transportation Management Policies..... 9-7
 Efficiency and Effectiveness Policies 9-7
 Required Evaluation..... 9-7
Implementation of the Congestion Management Process..... 9-9
System Monitoring 9-11
Congestion Management Process Project Documentation Form..... 9-12
Strategy Evaluation and Implementation..... 9-13

CHAPTER 10 AIR QUALITY ANALYSIS AND CONFORMITY DETERMINATION

Introduction 10-1
Status of Air Quality Pollutants..... 10-2
Travel Forecasting Model (TFM) and Mobile 6.2.2 Emission Model .. 10-4
Air Quality Analysis Plan Requirements..... 10-4
 Air Quality Analysis Crediting Provisions 10-5
Traffic Signal Optimization/Timing Upgrade Program 10-5
 Conversion of RTC ACCESS and RTC RIDE Fleets to
 Alternative or Cleaner Burning Fuels 10-6
Trip Reduction Programs 10-6
Air Quality Analysis Conformity Determination..... 10-7
 RTC Traffic Model Modifications 10-7
 Air Quality Analysis 10-7
 CO Analysis 10-8
 PM₁₀ Analysis..... 10-8
 Summary..... 10-9
Air Quality Conformity Analysis: Index 10-14

CHAPTER 11 ENVIRONMENTAL JUSTICE

Introduction 11-1
 Benefits of Environmental Justice 11-2
 Groups Addressed by Title VI and Environmental Justice 11-2
 Compliance with Environmental Justice 11-2
Federal Poverty Guidelines 11-8
Environmental Justice Policies 11-8

CHAPTER 12 ALTERNATIVE ANALYSES

Introduction 12-1
Alternatives Analyzed 12-2
 Alternative Freeway Corridors 12-2
 Other Alternative Corridors 12-5
Summary 12-6

CHAPTER 13 RTP FEDERAL CONFORMITY DETERMINATION

Introduction 13-1
Regional Transportation Plan—Federal Regulatory Conformity 13-1
Planning Emphasis Areas 13-5

APPENDICES

APPENDIX A—LAND-USE

OverviewA-1
Population and Employment Trends in Washoe CountyA-2

APPENDIX B—CAPACITY PROJECT PRIORITY SETTING PROCESS

Background InformationB-1
Policy GuidanceB-1
Street and Highway Congestion ObjectivesB-2
Street and Highway Congestion PoliciesB-2
Key Concepts.....B-3
 Time Stratification of ProjectsB-3
 Benefit-Cost AnalysisB-3
 Other Considerations in Establishing PriorityB-4
Practical ConsiderationsB-5
 Limits of the RTP Process.....B-5
 Funding Allocation.....B-5
 Limitations of the DataB-6
 Significance of BCA Benefit ElementsB-6
 The Meaning of BCA ResultsB-7
 Amendment and Consistency of the Capacity
 Priority Setting Process.....B-7
Priority Setting Process for Roadway Segments.....B-8
Priority Setting Process for Spot Intersection/Signal Improvements ..B-10

GLOSSARY
