AGENDA ITEM 4

FROM: Daniel Doenges, PTP, RSP
Planning Manager

SUBJECT: Update on the Nevada Department of Transportation Spaghetti Bowl Xpress (SBX)

RECOMMENDATION

Receive a report on the Nevada Department of Transportation Spaghetti Bowl Xpress (SBX) project.

SUMMARY

NDOT has begun work on what will be one of five phases under the Spaghetti Bowl Project umbrella. Phase one, known as Spaghetti Bowl Xpress, will address one of the most congested and unsafe areas within the Spaghetti Bowl system. With the proposed Spaghetti Bowl Xpress improvements, eastbound I-80 backups approaching the exit to I-580/U.S. 395 should be greatly reduced or eliminated, and southbound I-580/U.S. 395 backups at the Spaghetti Bowl should be eliminated. Overall, freeway safety in general should improve.

AGENDA ITEM 5

TO: Citizens Multimodal Advisory Committee

FROM: Jennifer Meyers
Transit Contract Administrator

SUBJECT: Coordinated Human Services Public Transportation Plan (CTP) update

RECOMMENDATION

Acknowledge receipt of a report regarding the update of the 2015 Coordinated Human Services Public Transportation Plan (CTP).

SUMMARY

The CTP is a federally required plan that guides the use of the Federal Transit Administration's (FTA) Transportation for Elderly Persons and Persons with Disabilities program (Section 5310). The CTP is a locally developed plan that identifies the transportation needs of individuals with disabilities, seniors, and people with low incomes; provides strategies for meeting those local needs; and prioritizes transportation services and projects for funding and implementation. The current plan was approved by the Board in February, 2015, and must be updated regularly. Staff sought a qualified consultant, LSC Transportation Consultants, Inc., to prepare the 2020 update to align with future updates of the Regional Transportation Plan (RTP), and be incorporated therein.

The CTP is being updated through a public outreach process. The purpose of the CTP is to improve transportation coordination in the region for persons with disabilities, older adults, and individuals with lower incomes, and to establish funding priorities for specialized transportation services. The Plan is being developed with input from local representatives of public, private and nonprofit transportation and human services providers, as well the public, and will include specific projects eligible for funding under Section 5310.

As the designated recipient for Section 5310 funds, the RTC must certify that all projects are included in a locally developed, coordinated public transit-human service transportation plan developed and approved through a process that included participation by seniors, individuals with disabilities, representatives of public, private, and nonprofit transportation and human service providers, and other members of the public.

In light of the COVID-19 pandemic and limited restrictions on public gatherings, the RTC is collaborating with LSC to develop a public outreach plan to include a video presentation, a project focused website that will host the video presentation and other planning updates, and an online comment/feedback form for public input. Virtual meetings will also be conducted with stakeholders in the region to solicit their ideas and feedback on the CTP and transportation alternatives. Based upon feedback collected from the online survey and from stakeholder meetings, concepts for eligible Section 5310 projects will be developed for inclusion and prioritization in the plan.
